Workplace bullying is a persistent pattern of mistreatment from others in the workplace that causes either physical or emotional harm. It can include such tactics as verbal, nonverbal, psychological, physical abuse and humiliation. This type of workplace aggression is particularly difficult because, unlike the typical school bully, workplace bullies often operate within the established rules ...

Workplace bullying - Wikipedia

The workplace is an important setting for health protection, health promotion and disease prevention programs. On average, Americans working full-time spend more than one-third of their day, five days per week at the workplace.
