- Hi, I'm Jill Griffin. I've had the privilege to research, write, and speak on customer loyalty strategies for three decades. One of my favorite questions to answer is how exactly do you build customer loyalty and my answer is understand how your customers experience value and then excel on those terms. Customers know instinctively in their hearts when you deliver value that matters and when ...

The Process. As shown in the reporting article, it is very convenient to use Pandas to output data into multiple sheets in an Excel file or create multiple Excel files from pandas DataFrames. However, if you would like to combine multiple pieces of information into a single file, there are not many simple ways to do it straight from Pandas.

A value network is a business analysis perspective that describes social and technical resources within and between businesses. The nodes in a value network represent people (or roles). The nodes are connected by interactions that represent tangible and intangible deliverables. These deliverables take the form of knowledge or other intangibles and/or financial value.
