INTRODUCTION. Prelabor rupture of membranes (PROM) refers to membrane rupture before the onset of uterine contractions (previously known as premature rupture of membranes); PPRM refers to PROM before 37+0 weeks of gestation.

Preterm prelabor rupture of membranes - UpToDate

A weekly roundup of information on newly offered instrumentation, apparatus, and laboratory materials of potential interest to researchers.

Science

Membrane proteins are proteins that interact with, or are part of, biological membranes. They include integral membrane proteins that are permanently anchored or part of the membrane and peripheral membrane proteins that are only temporarily attached to the lipid bilayer or to other integral proteins. The integral membrane proteins are classified as transmembrane proteins that span across the ...

Membrane protein - Wikipedia

60 participants from 15 countries made the last EMEA-workshop in June 2017 a success. The coming EMEA2018 Workshop will be the 6 th workshop in this series. Material developments and ion exchange membrane based systems for energy applications will be discussed by representatives from research and industry with the focus set on anion exchange membranes.

EMEA-Workshop

Polymeric gas-separation membranes were commercialized 30 years ago. The interest on these systems is increasing because of the simplicity of concept and low-energy consumption. In the refinery, gas separation is needed in many processes such as natural gas treatment, carbon dioxide capture, hydrogen purification, and hydrocarbons separations.

Polymeric Gas-Separation Membranes for Petroleum Refining

In biology and biochemistry, a lipid is a biomolecule that is soluble in nonpolar solvents. Non-polar solvents are typically hydrocarbons used to dissolve other naturally occurring hydrocarbon lipid molecules that do not (or do not easily) dissolve in water, including fatty acids, waxes, sterols, fat-soluble vitamins (such as vitamins A, D, E, and K), monoglycerides, diglycerides ...

Review of Current Knowledge 3 1 Introduction Without fresh water no society can function. Of all the water in the world a mere 0.5%-1% is fresh water available for the needs of all plant, animal and human life.

Desalination for Water Supply FR/R0013 - FWR Home Page

Isocyanates are a family of highly reactive, low molecular weight chemicals. They are widely used in the manufacture of flexible and rigid foams, fibers, coatings such as paints and varnishes, and elastomers, and are increasingly used in the automobile industry, autobody repair, and building insulation materials.

CDC - Isocyanates - NIOSH Workplace Safety and Health Topic

enhance the generation of electricity many folds. Except anodophiles, the microbes are incapable of transferring electrons directly to the anode.

Design and Development of Microbial Fuel cells - Formatex

Displaced or refugee women are at increased risk of violence. What can WHO do? 23 November 2018 | The estimate that 1 in 3 women around the world have experienced either physical and/or sexual violence, mostly by an intimate partner is one that is widely cited today.

Health topics - WHO | World Health Organization

Purpose: "Recently, the availability of Rituxan has substantially changed therapeutic approach to FL patients, since its combination with chemotherapy has improved response rates, progression free survival (PFS) and overall survival (OS).

One-Hundred-and-Twenty-Sixth Annual Undergraduate Bulletin

Due to the rapid and diverse growth of engineered nanomaterials, it is a challenge for regulators and risk assessors to understand the potential for exposure and whether methods used for assessing conventional chemicals can be used for nanomaterials.

Research on Nanomaterials | Safer Chemicals Research | US EPA

Antimicrobial resistance (AMR) is the ability of a microorganism (like bacteria, viruses, and some parasites) to stop an antimicrobial (such as antibiotics, antivirals and antimalarials) from working against it. As a result, standard treatments become ineffective, infections persist and may spread to others.
