The definitive handbook for telling stories with data. The definitive handbook for telling stories with data. Downloaded over 150,000 times, the Data Journalism Handbook is one of the world's leading journalism resources, used by students, researchers and practitioners learning about the state of the ever-evolving field of data journalism. A new second edition produced by the European ...

The Data Journalism Handbook

The Williams Institute analysis raises many more questions than it answers. It seems clear that being—or, more precisely, identifying as—some flavor of gender nonconforming or trans is correlated with a high rate of self harming behaviors. Mental health problems, coupled with a history of physical and/or sexual abuse or trauma, are associated with the highest risk of self harm.

The 41% trans suicide attempt rate: A tale of flawed data

A journalist is a person who collects, writes, or distributes news or other current information to the public. A journalist's work is called journalism. A journalist can work with general issues or specialize in certain issues. However, most journalists tend to specialize, and by cooperating with other journalists, produce journals that

span many topics.

Big data is a term used to refer to data sets that are too large or complex for traditional data-processing application software to adequately deal with. Data with many cases (rows) offer greater statistical power, while data with higher complexity (more attributes or columns) may lead to a higher false discovery rate. Big data challenges include capturing data, data storage, data analysis ...
