### **design as aesthetic communication pdf**

Design is the creation of a plan or convention for the construction of an object, system or measurable human interaction. Design has different connotations in different fields (see design disciplines below). In some cases, the direct construction of an object (as in pottery, engineering, management, coding, and graphic design) is also considered to use design thinking.

Aesthetic design values. The expansion of architectural and industrial design ideas and vocabularies which took place during the last century has created a diverse aesthetic reality within these two domains. This pluralistic and diverse aesthetic reality has typically been created within different architectural and industrial design movements such as: Modernism, Postmodernism, Deconstructivism ...
