Xeriscaping is landscaping and gardening that reduces or eliminates the need for supplemental water from irrigation. It is promoted in regions that do not have easily accessible, plentiful, or reliable supplies of fresh water, and is gaining acceptance in other areas as access to water becomes more limited. Xeriscaping may be an alternative to various types of traditional gardening.

2018 Update: Weather here in the Pacific Northwest isn't nearly as strange as what our friends in Ireland or on the East Coast are dealing with. What I'm seeing is actually pretty typical for early March in the Pacific Northwest: a back and forth between blustery, cold, wintery weather and drizzly, mild spring weather.

Environmental Awareness - Naturalist Intelligence Environment is the area in which we live and share. The thin layer of air that surrounds our planet that supports life. Humans are the only kind of life that we know of that exists in our universe. If we did not have our environment we could not exist.
